

Southwest Corridor Light Rail Project
Conceptual Design Report (CDR): DRAFT Principles & Goals

Last Updated: 7.16.2019

PRINCIPLES		GOALS	
 <p>MOBILITY Move people between destinations quickly, conveniently, and safely MOVE AND CONNECT PEOPLE)</p>		Goal 1: Design and implement a safe, dependable transit project that is competitive for Federal funds	
		Goal 2: Provide riders with an attractive and desirable transit experience	
		Goal 3: Design for adaptability to future modes and technology	
		Goal 4: Support completion of a multi-modal transportation network	
 <p>EQUITABLE COMMUNITIES Build partnerships to support vibrant and unique places for diverse people living in, and moving to, the Corridor (MAINTAIN AND CREATE EQUITABLE PLACES)</p>		Goal 1: Maintain and strengthen existing community and cultural assets	
		Goal 2: Promote equitable access to community resources and transit benefits	
		Goal 3: Support creation of welcoming and intuitive spaces for users of all abilities to support the well-being of individuals and the larger social fabric	
		Goal 4: Inspire equitable economic development	
 <p>ENVIRONMENT Preserve, restore, and create natural resources to increase ecosystem benefits and habitat [ENVIRONMENT PROTECTION, RESTORATION, AND CONNECTION]</p>		Goal 1: Preserve and support wildlife habitat and connectivity within the regional ecosystem	
		Goal 2: Design project that is ecologically responsive and optimized to support the natural environment	
		Goal 3: Provide and maintain access to nature, recreation, and green spaces	
 <p>RESILIENCE Maximize the community's physical and social resilience while reducing carbon emissions (MAKE WALK, BIKE AND TRANSIT THE PREFERRED CHOICE)</p>		Goal 1: Promote community sustainability by incorporating flexibility, adaptability, affordability, and diversity into the Project to withstand the test of time	
		Goal 2: Assist communities with the transition to a low-carbon future
